COURSE SYLLABUS

School Year	2025-2026
Subject	MUSIC
Grade Level	7
Teacher	ZOE LIN
Email	zlin@dishs.tp.edu.tw

COURSE DESCRIPTION:

Grade 7 Music builds upon foundational skills learned in previous years and encourages students to deepen their understanding of music through more advanced listening, performance, and creative activities. This course emphasizes the elements of music—such as rhythm, melody, harmony, dynamics, texture, and form—while connecting these concepts to various musical styles, genres, and cultures.

Students will participate in a variety of music-making experiences including singing, playing instruments (e.g., guitar, percussion, keyboard), and composing simple pieces. Through group activities, technology, and individual projects, students will explore how music communicates ideas, emotions, and cultural identity. Critical listening and analysis skills are further developed as students examine music from different eras and traditions.

COURSE OBJECTIVES:

By the end of the semester/school year, students will be able to:

Understanding Music Elements

Identify and describe the key musical elements (melody, rhythm, harmony, structure, lyrics) used in various popular music genres.

Analyze the musical and lyrical structure of selected popular songs.

Historical and Cultural Context

Trace the development of popular music from the early 20th century to present (e.g., blues, jazz, rock 'n' roll, Motown, disco, punk, hip-hop, pop, EDM).

Recognize the social, political, and cultural impact of popular music across different time periods.

Genres and Artists

Identify major artists, producers, and movements within various popular music genres.

Compare and contrast different genres and subgenres (e.g., R&B vs. soul, trap vs. boom bap).

Critical Listening and Analysis

Develop active listening skills and apply them to analyze songs in terms of lyrics, form, instrumentation, and production techniques.

Evaluate how music videos, marketing, and branding influence popular music consumption.

Creative and Reflective Expression

Express personal opinions about popular music through oral discussion, written reflections, or creative projects.

Create original music or remix using digital tools (optional: GarageBand, BandLab, Soundtrap, etc.).

Music and Identity

Explore how popular music reflects personal and group identities (race, gender, youth culture, etc.).
